Professional Summary

System Developer with over 3 years of experience in medium and large-scale projects, including SaaS development and internal control systems. Experience as an instructor at Senai for 2 years, as well as involvement in freelance and personal MicroSaaS projects. Strong knowledge of PHP, Laravel, React, Node.js, JavaScript, TypeScript, Next.js, Git, GitHub, Docker, AWS, and REST/RESTful API development. Seeking an opportunity to apply my full-stack development expertise and contribute to the success of innovative projects.

Keywords:

Full-Stack Development, PHP, Laravel, React, Node.js, JavaScript, TypeScript

SaaS, MicroSaaS, REST APIs, RESTful APIs

Git, GitHub, Docker, AWS

SQL, MySQL, PostgreSQL, SQL Server

Professional Experience

Fullstack Developer

Iceberg Security – Curitiba (PR)

January 2024 – September 2024

- Developed and maintained internal systems and SaaS using PHP, Laravel, React, and Node.js.
- Integrated REST and RESTful APIs to improve data flow across different platforms.
- Managed development environments with Docker and AWS.

Fullstack Developer

Link Monitoramento – Curitiba (PR)

November 2022 – July 2023

- Participated in the development of real-time monitoring systems using Laravel.js, MySQL, React, and Node.js.
- Implemented backend improvements with PHP and Laravel to optimize system performance.
- Collaborated with development and project management teams using Git and GitHub.

Instructor

SENAI – Curitiba (PR)

May 2022 – February 2024

- Taught system development courses focused on PHP, Laravel, React, and SQL databases.
- Guided students in practical projects, helping them apply programming concepts and industry best practices.
- Developed educational materials and organized technical training events.

Keywords: PHP, Laravel, React, Node.js, SQL, GitHub, Docker, APIs, Teaching
